COMPANY PROFILE

We Specify Systems, Not Products.

PROFESSIONAL
**CONTRACTOR
PREFERRED**
COMMERCIAL GRADE COATING

Why Baxta?

Baxta is a third-party manufacturer and specialist systems consultancy for paints, textures and renders, specialising in major construction projects.

Baxta works with architects, builders and painting contractors who provide the best systems, products and advice to ensure that both interior and exterior building finishes are correctly matched to the different substrates used throughout the project.

We do this by combining our range of top-quality products with our unique knowledge of and expertise in paints, renders and textures, and how and in which order they should be applied to the many varieties of materials used in the building industry.

Clients who work with Baxta enjoy peace of mind in knowing that the substrates on their project have been coated with the correct systems using products that meet Australian standards, giving the new building excellent durability and reducing ongoing maintenance costs.

Systems knowledge

Expert advice on the correct application system and sequence for every kind of building substrate.

Rapid rise to leading tier one supplier

In the past four years, Baxta has become a leading supplier into the commercial tier one marketplace, particularly in Queensland. We have completed more than 100 tier one and tier two construction projects, including high-rise towers from 20 to 98 stories, hospitals, shopping centres, retirement villages and entertainment precincts.

Whilst most projects have been around our Queensland base, we are now supplying the Melbourne CBD market. We plan to enter the Sydney CBD and surrounds and major regional centres along the east coast in the near future.

A leader with outstanding experience

Baxta is headed by General Manager Bob Matthews, who has an extensive 30 year history in the coatings industry, across a variety of leadership positions within top Australian paint and render manufacturers in several markets (including trade, retail, marine, protective coatings, metal coatings, timber and new technologies such as UV cured coatings).

Under Bob's leadership, Baxta operates with commitments to:

- **Environmental protection.** Strict guidelines for product review and assessment aim to ensure we always comply with the highest environmental standards.
- **Excellent customer service.** We strive to exceed client expectations in everything that we do.
- **Duty of care.** We have a duty of care to our clients and their customers in carrying out our work to the highest standards. Close enough is never good enough.
- **Innovation.** We stay up-to-date with technology and product developments in our field so that we can always provide the best solutions and systems for each project's substrate coatings.

“ We specify systems - not products. ”

Clients tell us they enjoy working with us because:

We can provide a reliable system for any substrate

We have excellent customer service

We always deliver in full on time

We offer unique and valuable value-adds to each project

We are timely, transparent and open in our communications with them.

A unique product and service package

When you use Baxta products, you can be assured they are top quality, certified by the Australian Paint Approval Scheme (APAS), tested in a National Association of Testing Authorities, Australia (NATA) accredited laboratory, and meet Australian standards.

We also bring a unique package of value-add services to each project at no extra cost.

Pre-application inspection report

We inspect the whole project and document possible problems, difficult substrates and potential colour issues.

Specifications

We provide product, application and system specifications for all interior and exterior surfaces.

Periodic inspections

During the coatings phase we carry out inspections to ensure correct film build, number of coats, use of expansion joints and colour compatibility.

10 or 15 year systems warranty

We provide our warranty on the coating systems used, not just a product warranty.

Maintenance Plans

Our comprehensive, tailored maintenance program shows you how to get full benefit from our coating systems and warning signs to watch for.
